

Portable Document Format (PDF)

PDF stands for **Portable Document Format** file. This type of file is formatted to look exactly like the original document. It is comparable to someone taking a picture of the document. To view these files you need a free program called *Adobe Reader*[®].

The *Adobe Reader*[®] program lets you download, view, and print PDF files. Adobe[®] distributes *Adobe Reader*[®] free-of-charge by allowing users to [download it from their Web site](#). We suggest that you use *Adobe Reader*[®] version 3.01 or later for viewing the PDF documents on this Web site.

Many publications and forms are available in Portable Document Format (PDF) on our site.

Characteristics of PDF-formatted files

- Are downloaded to your computer and viewed on *Adobe Reader*[®].
- Are saved in original print format, including all original graphics and fonts.
- Print out exactly like the original printed (paper-copy) document.
- Are formatted specifically for your printer.

Note on forms: *Adobe Reader*[®] does not allow users to save completed fillable PDFs to their computer. Refer to the Adobe[®] Web site for more information on fillable PDFs.
